## Golf Cart Operation

August 5, 2022

There have been some resident concerns expressed regarding the safe and appropriate use of golf carts and other motorized vehicles in the village.

The Village of Wonder Lake Police Department's primary concern is for the safety of our residents. We want to remind you that the use of a golf cart and other motorized vehicles within village limits have certain licensing and registration requirements:

- Golf cart permit forms are posted on the village website
- Each golf cart has to be inspected by a police officer to verify all safety equipment is installed and operational to obtain registration
- A valid Wonder Lake registration has to be displayed on the vehicle
- State and local traffic laws have to be observed (underage drivers, driving under the influence, careless/reckless operation, and golf cart operation in non-approved neighborhoods)
- Please observe the manufacturers passenger recommendations
- Certain motor operated vehicles are NOT permitted on village streets (unregistered golf carts, utility task vehicles, unlicensed motorcycles, illegal minibikes and ATV's)
- The Police Department is asking all parents to monitor the of riding these types of vehicles

Please call the Wonder Lake Police Department at 815-728-0535 with any questions or to schedule your safety inspection.

Please operate safely and have a good time in Wonder Lake.
